REARD'S PIPE WAS SHOT FROM HIS MOUTH

Bullet Also Passed Through His Wife's Hat, Says Report of Near Murder in Torrance County.

Moriarty, N. M., Oct. 7.—A mysterious shooting occurred Sunday night just after dark in the foothills, west of town, which came within an inch of being fatal. While driving home Sunday Mr. and Mrs. Joe Renard had crossed onto their land at the point where Joe Germany fired a shot that rang out in the stillness of the night. The bullet shot Joe's pipe out of his mouth and passed through Mrs. Renard's hat. The Renards cannot understand why anyone would be shooting at them and believe it was an accidental shot. Only one shot was fired.

WOMEN WHO ARE ALWAYS TIRED

May Find Help in This Letter.

Swan Creek, Mich.—"I cannot speak too highly of your medicine. When through neglect or overwork I get run down and my appetite is poor and I have that weak, languid, always tired feeling, I get a bottle of Lydia E. Pinkham's Vegetable Compound, and it builds me up, gives me strength, and restores me to perfect health again. It is truly a great blessing to women, and I cannot speak too highly of it. I take pleasure in recommending it to others."—Mrs. ANNIE CAMERON, R.F.D., No. 1, Swan Creek, Michigan.

Another sufferer relieved. Hebron, Me.—"Before taking your remedies I was all run down, discouraged and had female weakness. I took Lydia E. Pinkham's Vegetable Compound and used the Sanative Wash, and find today that I am an entirely new woman, ready and willing to do my housework now, where before taking your medicine it was a dread. I try to impress upon the minds of all ailing women I meet the benefits they can derive from your medicines."—Mrs. CHARLES ROWE, Kennebago, Maine.

If you want special advice write to Lydia E. Pinkham Medicine Co., (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

BECHTEL WINS SUIT IN LINCOLN COUNTY REMOVAL ACTION

Clovis, N. M., Oct. 7.—The case of Ben Bechtel against the trustees on an injunction bond growing out of the removal of the county seat of Lincoln county from Lincoln to Carrizozo in the fall of 1910, was won by the plaintiff, the jury awarding damages in the sum of \$17,750.19.

In 1909 the Carrizozo townsite people succeeded in having an election called for the purpose of voting on the question of removing the county seat from Lincoln, where it had been located ever since the county was organized, to Carrizozo. Carrizozo won by a majority of about 15.

Having got the seat of the county government, it then became necessary to have a court house and jail in Carrizozo. In the spring of 1910 the county commissioners of Lincoln county issued bonds (which they had a right to do under the law) to the amount of \$25,000. Plans and specifications for the court house and jail were drawn up, bids were advertised for, and on March 8, 1910, the contract was awarded to Ben Bechtel, now a resident of Curry county, for \$26,000.

Shortly after the awarding of the contract to Bechtel, the Lincoln defendants instituted quo warranto proceedings for the purpose of testing the validity of the election held the previous fall, and on October 19, 1910, in aid of that quo warranto proceeding, the people of the same county instituted an injunction proceeding to restrain the county commissioners from proceeding with the work of constructing the court house and jail at Carrizozo.

At this time the court house was about one-half completed. The injunction was served on the commissioners, but not on the contractor, it is claimed. At that time there was due the contractor, upon the architect's estimate, about \$1,000, which the county commissioners were unable to pay on account of having been enjoined. Thereupon Bechtel quit work and continued to lay off until the quo warranto case had gone to the supreme court of the United States, and had been decided adversely to the people of Lincoln.

Upon the rendition of the decision by the supreme court of the United States the injunction suit was dismissed in February, 1913.

In the injunction suit two injunction bonds were given conditioned for the payment of all damages resulting from delay in the work of construction bonds were given conditioned by March, 1913, after the dissolution of the injunction Contractor Bechtel resumed work and completed the buildings at Carrizozo in September of that year.

In January, 1914, Bechtel made final settlement with the board of county commissioners. Thereafter he instituted suit for damages against the trustees on both injunction bonds, claiming damages in the aggregate of \$19,000. Simultaneously he filed a damage suit against the county commissioners of Lincoln county, claiming \$13,000 damages.

At the trial here the amount of damages claimed by Bechtel narrowed down to about \$14,250.

CATRON BELIEVES NATION SHOULD RECOGNIZE CARRANZA

New Mexico Senator Claims Constitutionalist Chief Has Demonstrated Military Dominance of Situation.

THINKS WITH EMBARGO HE COULD STOP ANARCHY

Will Stand for Strong Program of Increased Defense Both in Army and Navy; Extra Session Not Necessary Now.

"With the crushing defeat of Francisco Villa by the army under Obregon and since the latter's forces control a large majority of the nation, I think the United States government should recognize the Carranza government," said United States Senator T. B. Catron of Santa Fe today, in speaking of the Mexican situation. "Then, if Carranza is not able to eliminate all factions and restore peace and quiet in the war-torn country south of the Rio Grande, I think our government should intervene for the sake of foreign interests and for the sake of a starving and helpless nation."

"But I believe that if the United States government recognized Carranza and placed a strong embargo on the exportation of arms from this country to the other warring factions that it would be but a short time until the guerrillas would be eliminated and the wheels of industry of that country would again start revolving. "Mexico is a nation rich in mineral resources, great cotton fields and cattle ranges, but the interests of Americans and other foreigners in the country have been practically being destroyed by this continuous warfare. Nearly all the livestock of Americans has been destroyed and many of the mines confiscated. The policy of the United States towards Mexico has not been forcible enough in the past and it is time now that something is done, something definite that will bring peace and prosperity out of chaos."

In speaking of his views on national defense Senator Catron said:

"I am strongly in favor of a better and larger army and navy. I think that our navy should be increased to such an extent that if a foreigner starts warfare against the United States our ships can sink their transports and battleships in the middle of the ocean and prevent them from

Cottolene is pure and wholesome

The shortening you use in cooking and baking should have all the excellence of the food that is prepared with it.

Cottolene itself is a pure, wholesome food, consisting of ultra-refined cottonseed oil—as fine as the choicest salad oil—and beef stearine from selected leaf beef suet.

Cottolene

is not "just as good" as other cooking and frying fats—it is better than any other—more nutritious, more wholesome, more digestible—better in every way.

Cottolene does not absorb tastes or odors. Heat it slowly and use it over and over for all kinds of frying.

Always use a third less of Cottolene than of any other shortening. Cottolene goes farthest and gives the most gratifying results.

Pails of various sizes. Arrange with your grocer for a regular supply.
